70 DUBOIS STREET
NEWBURGH, NY 12550

19 LAUREL AVENUE
CORNWALL, NY 12518

At the SLCH Institute for Metabolic and Bariatric Surgery, we provide our patients with continued support and information throughout their weight loss journey. One of the first steps in this journey is to learn about all of the different surgical weight loss options available to you. Our free seminar will include how each surgery works, the risks and benefits, as well as how our team can help you make these important lifestyle changes.
