

COMPREHENSIVE CANCER CARE

The **Littman Cancer Center** puts patients and their families at the core with a clinical team that delivers compassionate care from diagnosis through recovery and survivorship. The Littman Cancer Center ensures continuity of care throughout the journey with the most advanced modalities and diagnostics, all housed in a healing environment ... designed to meet the physical and emotional needs of cancer patients and their families.

The journey through cancer care can be both confusing and frustrating. No patient "goes it alone" at the Littman Cancer Center. **We offer the support of a patient navigator** who can assist with scheduling medical appointments, providing transportation resources and a variety of other services to help guide patients through the process. SLCH also offers support groups for both patients and caregivers at no charge.

The Infusion Center at the Littman Cancer Center works collaboratively with patients, families, physicians and support staff to provide treatments and procedures in a caring, respectful and compassionate manner. Patients with cancer and other chronic conditions that require intravenous treatments, injections, and blood transfusions may rest assured that all medical and emotional needs are met in a healing environment.

Cutting-edge technology and experienced, compassionate care are the hallmarks of **Cornwall Radiation Oncology Services**. CROS offers advanced TomoTherapy Radiation therapy – the first in Orange, Ulster and Sullivan Counties – which precisely pinpoints and treats cancer. This remarkable therapy delivers more than 10,000 highly targeted radiation beams that conform to cancerous tumors, avoiding critical organs and minimizing damage to healthy tissues. Cancer can't hide from TomoTherapy and the exceptional team at CROS.

For more information, contact (845) 458-4444, or visit stlukescornwallhospital.org.

WOUND HEALING & HYPERBARIC MEDICINE

Located in the Cornwall Medical Pavilion, SLCH Center for Wound Healing and Hyperbaric Medicine is the only site in Orange, Ulster and Sullivan Counties to offer Hyperbaric Oxygen Therapy (HBOT). HBOT is a medical treatment that enhances natural healing by providing additional oxygen to the body's tissues. HBOT is utilized for the treatment of nonhealing wounds caused by conditions including diabetes, peripheral vascular disease, arterial or venous ulcers, traumatic injury, complications after surgery or radiation therapy, rheumatoid arthritis, congestive heart failure, lymphedema and other conditions that compromise circulation.

For more information, call (845) 458-4512.

EASTERN ORANGE AMBULATORY SURGERY CENTER

The Center offers a range of specialized surgical services for Orthopedics, General Surgery, Plastic Surgery, Ophthalmology, Gastroenterology and Podiatry.

EOASC is located in the Cornwall Medical Pavilion. For more information on the services provided call (845) 458-7800.

PRIMARY CARE/FAMILY MEDICINE

The St. Luke's Cornwall Medical Group's mission is to focus on the medical needs and challenges of each individual who entrusts their health care to the practice. By combining preventative medicine strategies with state of the art treatment options, our physicians are committed to providing the high quality health care that our community deserves.

Office hours are from 9 a.m. through 5 p.m. on Monday, Tuesday, Thursday and Friday. The office is open until 7 p.m. on Wednesdays. Same day appointments are available.

For more information, visit www.slmedgroup.com.

DIAGNOSTIC SERVICES

CENTER FOR SLEEP MEDICINE

Millions of people are finding renewed energy and improving their overall health and well-being through the specialty of Sleep Medicine. The St. Luke's Cornwall Center for Sleep Medicine is committed to enhancing quality of life for those experiencing disruptive sleep. Using advanced diagnostics and the latest research in the field, our highly qualified staff will evaluate your sleep patterns and devise a custom treatment plan to improve your ability to obtain sleep.

For more information, call (845) 458-4899 or email sleepcenter@slchospital.org.

BALANCE CENTER

Dizziness or imbalance frequently has treatable underlying causes. Balance testing is designed for anyone with dizziness, vertigo, difficulty judging distance, people with an increased risk of falling and anyone who has fallen once in the past year.

The St. Luke's Cornwall Hospital Balance Center uses a team approach to diagnose and treat your balance problems. Our multidisciplinary team of medical experts includes an otolaryngologist with subspecialty training in vestibular disorders, audiologist and vestibular therapists. It is not uncommon for individuals with a history of balance problems to regain their balance control through accurate diagnosis, followed by specific medical treatment and/or rehabilitation exercises.

OTHER SERVICE OFFERINGS

INSTITUTE FOR METABOLIC & BARIATRIC SURGERY

Bariatric Surgery is a life changing event that requires a team approach for long term success. The team at The St. Luke's Cornwall Hospital Institute for Metabolic and Bariatric Surgery works with each individual patient to ensure that the proper pre and post procedure support is provided.

Located in the Cornwall Medical Pavilion, Suite 240, the SLCH Center for Metabolic and Bariatric Surgery offers Lap- Band, and Sleeve Gastrectomy. Each surgery has a unique profile of effectiveness, safety and risks. Our team of expert surgeons will help you choose the right operation for you. Our surgeons are very experienced in laparoscopy, and therefore, all of our surgeries are performed laparoscopically.

KREISBERG FAMILY CENTER FOR PAIN MANAGEMENT

The Kreisberg Family Center for Pain Management, is dedicated to the interventional management of chronic disabling pain of the back, neck or joints, including:

Radiculopathy | Facet disease | Degenerative disc disease
Reflex sympathetic dystrophy | Post herpetic neuralgia
Peripheral vascular disease | Complex Regional Pain Syndrome
Management of pain in the terminally ill patient

Open Monday through Friday, hours vary. For more information, call (845) 458-4591.

CARDIAC AND PULMONARY REHAB

For patients with coronary disease, the physical and emotional challenges can be great. SLCH's Center for Cardiac Rehabilitation is dedicated to restoring health and well-being to these patients through a multidisciplinary program for both mind and body. According to the American Heart Association, cardiac rehabilitation programs can "extend overall survival" and "improve quality of life" for those with coronary issues.

Pulmonary rehabilitation is a multidisciplinary program of care for patients with chronic respiratory impairment that is individually tailored and designed to optimize physical and social performance, and autonomy. The program includes exercise training, education and counseling.

PHYSICAL THERAPY

The St. Luke's Cornwall Center for Physical Therapy features highly experienced clinicians who offer patients a warm, friendly, caring and productive environment that promotes healing and recovery.

We offer a full range of treatment options, including:

- Electrical stimulation
- Laser therapy
- Ultrasound
- Strength training

The Cornwall campus offers physical therapy, occupational therapy, lymphedema therapy as well as vestibular therapy. The office is open Monday through Thursday from 7 a.m. until 7 p.m. and 7 a.m. through 4 p.m. on Fridays. Call (845) 458-4267 for more information.
