

COMPREHENSIVE CANCER CARE

The **Littman Cancer Center** puts patients and their families at the core with a clinical team that delivers compassionate care from diagnosis through recovery and survivorship. The Littman Cancer Center ensures continuity of care throughout the journey with the most advanced modalities and diagnostics, all housed in a healing environment that is designed to meet the physical and emotional needs of cancer patients and their families.

The journey through cancer care can be both confusing and frustrating. No patient "goes it alone" at the Littman Cancer Center. **We offer the support of our Oncology Navigation Program** which can assist with scheduling medical appointments, providing transportation resources and a variety of other services to help guide patients through the process. MSLC also offers support groups for both patients and caregivers at no charge.

The Infusion Center at the Littman Cancer Center offers a warm, welcoming environment that incorporates flexible treatment space with 10 infusion chairs and one treatment bed. Our staff works with each individual patient throughout their entire journey with us. You will learn about your medications and their most common side effects. We work in collaboration with your physician's office so you can feel confident that there is a continuum of care.

Cutting-edge technology and experienced, compassionate care are the hallmarks of **Cornwall Radiation Oncology Services**. Patients and families are essential to the collaborative approach we use in assessing and developing a treatment plan individualized to each of our patients. Our physicians and staff are all board-certified in radiation oncology and have extensive training and experience with the TomoTherapy technology. TomoTherapy is a hybrid between a CT imaging scanner and an external beam radiation therapy machine, and the radiation used for both imaging and treatment can completely rotate around the patient.

WOUND HEALING & HYPERBARIC MEDICINE

The Montefiore St. Luke's Cornwall Comprehensive Wound Healing Center is dedicated to healing wounds, preventing lower limb loss and optimizing outcomes for our patients.

If you or a loved one has a wound that is of concern or is not healing properly, we encourage you to visit the wound center for an evaluation. A wound that is not healing properly may be complicated by underlying conditions such as diabetes, circulation problems or previous radiation treatment. Sometimes, the simplest of wounds can turn into a significant problem because the body's normal healing process is affected. Other types of hard-to-heal wounds result from pressure, trauma or infection. Non-healing wounds can have serious health consequences and may adversely affect your quality of life. Contact us at (845) 458-4512 to learn more about how we can help you or a loved one, including hyperbaric oxygen therapy.

EASTERN ORANGE AMBULATORY SURGERY CENTER

The Center offers a range of specialized surgical services for Orthopedics, General Surgery, Plastic Surgery, Ophthalmology, Gastroenterology and Podiatry.

EOASC is located in the Cornwall Medical Pavilion.
For more information on the services provided call
(845) 458-7800.

PRIMARY CARE/FAMILY MEDICINE

The mission of The Medical Group at Montefiore St. Luke's Cornwall is to focus on the medical needs and challenges of each individual who entrusts their health care to the practice. By combining preventative medicine strategies with state of the art treatment options, our physicians are committed to providing the high quality health care that our community deserves.

OTHER SERVICE OFFERINGS

New York Vascular Group strive to deliver expert medical and surgical vascular treatment in New York. With affiliation with the largest group of Board-certified vascular surgeons in the country along with the state-of-the-art facility that allows to treat a variety of conditions, the team is fully dedicated to offering the most comprehensive vascular care. From conservative therapy to minimally invasive endovascular procedures and traditional surgical treatments, the team built of specifically trained vascular surgeons with additional training in a vascular fellowship is committed to complete your vascular needs. The office is open 8 a.m. - 5 p.m. Monday through Friday. For more information, call (845) 253-5155.

KREISBERG FAMILY CENTER FOR PAIN MANAGEMENT

The Kreisberg Family Center for Pain Management offers diagnosis and treatment to those dealing with chronic pain as a result of an injury or illness, including that of the back or neck. The Center's board-certified physicians and other clinicians are committed to the comfort and well-being of patients.

We will devise a treatment plan to help you:

- Reduce and control pain
- Assist your family to understand pain management
- Resume an active lifestyle
- Attain your highest level of functionality

DIALYSIS CENTER

The Dialysis Center at the Cornwall campus opened in February 2019. It includes a home hemodialysis option for patients and can treat a maximum of 200 patients a week, enabling the team of expert medical professionals to better serve the area's growing dialysis community. In New York, more than 29,600 patients require dialysis treatment. At-home dialysis offers greater independence, convenience and health benefits to patients who would otherwise spend up to 12 hours a week in a center receiving the life-sustaining care. The clinic is open 5 a.m. - 11 p.m. Monday through Saturday. For more information, call (845) 534-9820.

Rehabilitation at

Montefiore | St. Luke's Cornwall
Burke Rehabilitation Hospital Partner Facility

CARDIAC AND PULMONARY REHAB

Our medically supervised Cardiac Rehabilitation program provides education for patients paired with individualized exercise training. MSLC's Center for Cardiac Rehabilitation is dedicated to restoring health and well-being to these patients through a multidisciplinary program for both mind and body. According to the American Heart Association, cardiac rehabilitation programs can "extend overall survival" and "improve quality of life" for those with coronary issues.

Pulmonary rehabilitation is a multidisciplinary program of care for patients with chronic respiratory impairment that is individually tailored and designed to optimize physical and social performance, and autonomy. Benefits include becoming stronger, reducing stress, decreasing shortness of breath, and increasing stamina. For more information, call (845) 458-4760.

PHYSICAL THERAPY

The Montefiore St. Luke's Cornwall Center for Physical Therapy features highly experienced clinicians who offer patients a warm, friendly, caring and productive environment that promotes healing and recovery.

We offer a full range of treatment options, including:

- Lymphedema Management
- Balance And Vestibular Therapy
- Post-Concussion Therapy
- Pelvic Floor Therapy
- Lsvt Big® (Parkinson's Disease)
- Hand Therapy

The Cornwall campus offers physical therapy, occupational therapy, lymphedema therapy as well as vestibular therapy. The office is open Monday through Thursday from 7 a.m. until 7 p.m.
