At St. Luke's Cornwall Hospital, we strive to simplify your Interventional Radiology experience. It is our goal to provide quality care with coordinated follow up appointments and communication between referring physician, interventionalist, labs and hospital. Same day appointments are available if warranted.

All procedures done on site, at the St. Luke's Cornwall Hospital Newburgh campus. We offer convenient parking, coordination with referring physicians, labs and follow up appointments.

For more information call (845) 568-2242 or contact: Jennifer Wittekind, Clinical Coordinator at (845) 784-3822.

## Interventional Radiology Procedures

### General procedures

- CT/US biopsies (lung liver, bone thyroid)
- Abscess drainage
- Hysterosalpingograms
- Fallopian tube recanalization
- Thoracentesis
- Paracentesis
- Mammo LOC/ Breast LOC

### Oncology procedures

- Yttrium 90
- Hepatic chemo embolization
- Radiofrequency ablations (liver lung kidney)
- Cryoablations (liver kidney lung)
- Preoperative embolizations (hysterectomy, nephrectomy)

### Hepatobiliary

- Percutaneous transhepatic cholangiograms
- Biliary drainage procedures
- Biliary stents

### Renal

- Renal angiography - angioplasty and stenting if needed
- Ureteral stent placement
- Ureteroplasty

### Access

- Mediport
- Arm ports
- All vascular access

### Dialysis

- AVG declotts- same day- angioplasty and stents
- Permanent catheter placements (all places)
- Surveillance of sites
- Peritoneal dialysis catheters
- Pain Management
- Kyphoplasty
- Vertebralplasty
- Sacroplasty
- Nerve root blocks steroid injections
- Celiac plexus radiofrequency ablation of painful bone metastasis

### Vascular

- Angiograms (peripheral, cerebral, carotid, venous stenting)
- Thrombolysis
- AAA
- IVC filters (insert/ remove)
- Embolizations (trauma, uterine, fibroid, epistaxis)
- TIPPS
